CROMOTERAPIA

CHROMOTHERPY
CHROMOTHERAPIE
FARB THERAPIE

La cromoterapia è praticata come terapia per i disturbi psicosomatici , ansia, stress , depressione , debolezza fisica e mentale , deficit immunitari , dolore localizzato e spasmi .
L'applicazione più efficace della cromoterapia consiste nel irradiare il colore adatto su tutto il corpo o su un punto specifico in cui è lo squilibrio energetico .

Colour therapy is practiced as a therapy for psychosomatic disorders, anxiety, stress, depression, physical and mental weakness, immune deficiencies, localized pain and spasms.
The most effective application of colour therapy consists in irradiating the suitable colour on the whole body or on a specific point where is the energy imbalance.

Ogni colore, tra i seguenti, trasmette proprietà benefiche :
Each colour, among the following, conveys beneficial properties:

Giallo/ Yellow

Viola/ Purple

Cromoterapia Box Doccia / Shower Box Chromotherapy

- Rosso** : stimola l'attività fisica e intellettuale, migliora la circolazione e la produzione di globuli rossi, è antibatterico.
Red: stimulates physical and intellectual activity, improves circulation and production of red blood cells, is antibacterial.
- Blu**: calmante e rilassante, elimina il mal di testa, diminuisce la pressione arteriosa, è antisettico e allevia il dolore.
Blue: calming and relaxing, it eliminates the headache, decreases blood pressure, is antiseptic and relieves pain.
- Giallo**: stimola l'intelletto e la concentrazione, rafforza il sistema immunitario, agisce sul pancreas, è purificante.
Yellow: stimulates intellect and concentration, strengthens the immune system, acts on the pancreas, is purifying.
- Verde**: allevia insonnia, mal di testa, di stomaco e problemi intestinali, è antibatterico, agisce nei casi di esaurimento nervoso.
Green: relieves insomnia, headaches, stomach and bowel problems, is antibacterial, acts in cases of nervous exhaustion.
- Viola** : è rilassante, favorisce la concentrazione e la meditazione, combatte la fatica e il dolore agendo sulla milza.
Purple: is relaxing, promotes concentration and meditation, fights fatigue and pain acting on the spleen.
- Arancione**: stimola il metabolismo, polmoni, tratta gli spasmi e crampi, ristabilisce l'equilibrio del sistema nervoso per superare ansie e paure.
Orange: stimulates metabolism, lungs, treats spasms and cramps, restores the nervous system balance to overcome anxieties and fear.

IDROMASSAGGIO

WHIRLPOOL
HYDROMASSAGE
HYDROMASSAGE

AIRPOOL

Il sistema airpool immette nell'acqua aria attraverso appositi diffusori posizionati sul fondo della vasca. Il massaggio airpool può essere continuo o intermittente, proprio come accade con i geysers; e le bocchette possono essere dotate di valvole antiriflusso che impediscono il riflusso dell'acqua. Si tratta di un trattamento rilassante e distensivo: i flussi delicati di aria massaggiano dolcemente la muscolatura, stimolando la microcircolazione periferica e i terminali nervosi.

The airpool system enters the water through special air diffusers positioned on the bottom of the bathtub. The massage airpool can be continuous or intermittent, just like what happens with geysers and the jets can be fitted with non-return valves that prevent the backflow of water. It is a soothing and relaxing treatment: the gentle flow of air gently massage the muscles, stimulates the microcirculation and peripheral nerve terminals.

BOCCHETTE / JETS

L'idromassaggio combatte disturbi come l'insonnia, il nervosismo, l'artrosi o l'insufficienza venosa. Inoltre, facilitando il rilassamento muscolare, è ottimo come defaticante post-sportivo e come linfodrenante per la cellulite, grazie al suo effetto sull'aumento del flusso sanguigno e sulla diminuzione della pressione arteriosa. Anche le vie respiratorie, con il vapore e le alte temperature dell'acqua, potranno godere di un effetto decongestionante e stimolante grazie ad esso.

L'idromassaggio può essere utile semplicemente per riattivare la temperatura e la circolazione corporea oppure solo per regalarti un momento di armonia mentale e benessere fisico.

Whirlpool fights disorders such as insomnia, nervousness, arthritis or venous insufficiency. In addition, it is an excellent post-sport as it facilitates muscle relaxation and it acts as a lymph drainage which can help with cellulite, then it increases blood flow and decreases blood pressure. Even the respiratory tract, with steam and high temperature water, will enjoy a decongestant and stimulant effect.

Whirlpool can be merely useful to reactivate the body temperature and circulation or just to give you a moment of harmony mental and physical well being.

MICRO JETS

La parte alta della schiena e i piedi sono le zone in cui si distribuisce il peso maggiore. Posizionando i microjets nella vasca, più precisamente nei punti dove poggiano i muscoli dorsali e le piante dei piedi è possibile godere di un massaggio profondo e rilassante.

The upper part of your back together with your feet are the areas in which you deploy most of the weight.

If you place some microjets in your bathtub, precisely at the points where the dorsal muscles and the soles of the feet rest, you can enjoy a deep and relaxing massage.

BAGNO TURCO / STEAM BATH

Il bagno di vapore, comunemente chiamato "bagno turco", appartiene ad un'antichissima tradizione di bagni purificatori. Quando in un ambiente il contenuto di vapore è superiore alla quantità d'acqua presente nell'epidermide, si forma sulla pelle uno strato di umidità che apporta calore al corpo. L'azione contemporanea del vapore e del calore controllato aiuta la circolazione sanguigna linfatica sciogliendo le tossine e favorendone l'espulsione.

Per le sue proprietà tonificanti e rilassanti, il bagno di vapore si rivela una delle migliori terapie per combattere lo stress e la tensione a cui siamo sottoposti quotidianamente; è inoltre un piacevole mezzo per migliorare il proprio aspetto fisico e ricercare una maggiore efficienza. La dilatazione dei pori provocata dal calore, facilita la penetrazione del vapore e permette all'epidermide di eliminare le impurità acquistando luminosità, elasticità e morbidezza. Praticabile a tutte le età è un ottimo regolatore della pressione ed un indispensabile strumento terapeutico e preventivo per i disturbi alle vie respiratorie.

The steam -commonly called "turkish bath"- belongs to an ancient tradition of purifying baths.

When the content of steam in a place is higher than the amount of water present in the epidermis, form a layer of moisture on the skin that provides heat to the body. The simultaneous action of steam and heat helps blood and lymphatic circulation, dissolving toxins and favoring the expulsion. Thanks to its invigorating and relaxing properties, the steam turns out one of the best therapies to fight stress and strain to which we are subjected on a daily basis. It is also a pleasant way to improve physical appearance and seek greater efficiency. The dilation of the pores due to the heat effect, facilitates the penetration of steam and allows the skin to remove impurities and to increase its brightness, elasticity and smoothness. Practicable for all ages it is a great pressure regulator and a necessary therapeutic and preventive tool to treat respiratory disorders.

KILKENNY

Benessere e rinnovamento influenzano lo stato d'animo conferendo energia e positività... che male c'è nel dedicare un pò di tempo a se stessi?

Wellness and Renewal affect the mood by giving energy and positivity ... what's the harm in devoting some time to yourself?

ENNIS

Le finiture cromate proteggono i cristalli e ne evidenziano la trasparenza. È una soluzione comoda, disponibile nelle misure più richieste dal mercato e da coloro che desiderano collocare il proprio box anche all'interno di spazi più modesti.

The chrome finishes protect its crystals and point out its transparency. It is a comfortable solution, available in the most popular sizes required by the market and those who want to place their box even inside modest spaces.

SLIGO

Sligo è l'unico semicircolare a disposizione tra i box modulari. E' caratterizzato da finiture cromate e apertura scorrevole.

Sligo is the only semicircular modular box available. It's characterized by chrome finishes and sliding crystals.

FAMILY

Comodo, spazioso e sicuro; dotato di seduta e privo di giunture.

Può essere una buona soluzione per sostituire una vecchia vasca e per agevolare l'accesso a tutta la famiglia. Il box Family infatti, da una parte si presta bene per fare la doccia ai bambini, dall'altra permette ad una persona anziana o con difficoltà motorie di autogestirsi.

Comfortable, spacious and safe, with seat and no joints.

It can be a good solution to replace an old bathtub and to facilitate the access to the whole family. In fact the shower box Family lends itself well to shower the children, but on the other hand allows elderly or people with mobility difficulties to manage themselves.

DOUBLE

La presenza di due poggiatesta, uno più alto e uno più basso, posti in rilievo alle estremità della vasca, permette di trovare la posizione più comoda per appoggiare il collo e rilassarsi.

The presence of two headrest, one higher and one lower, in relief at the ends of the bathtub, lets you find the most comfortable position to support the neck and relax.

SPIRIT

Gli stili di vita, per quanto vari essi siano, sono tutti accomunati da una nuova attenzione al benessere che si traduce in una nuova forma di cultura del bagno e dei suoi spazi.

Lifestyles -no matter how different they are- they are all focused on wellness that results in a new form of bathroom culture and its spaces.

SKILLS

L'arredamento è libertà di espressione.

Per questo è stata creata Skills, l'angolare particolare, bella, ampia e comoda.

Decor means expression freedom.

For this reason Skills was created; it's a particulier, beautiful, wide and comfortable corner bathtub.

Posizionare una placchetta-interruttore di corrente salvavita collegata al cavo elettrico a distanza di sicurezza prevista dalle norme CEI.

C.F.
010

Uscita acqua calda e fredda per rubinetteria a bordo vasca. Si consiglia l'installazione di filtri anticalcare. Predisporre flessibili di lunghezza 1 - 1,5 m.

Punto di scarico del box o della vasca.
Imbocco scarico Ø 5cm

SIFONE: Predisporre un pozzetto di circa 8 - 10 cm di profondità per l'alloggiamento della piletta di scarico.
Non murare il tubo di scarico per tutta la sua lunghezza onde facilitare l'allaccio.

Cavo elettrico in uscita di almeno 1 metro (230V - 50Hz)

Place a circuit breaker connected to the power cord at the save distance required by your country rules.

C.I.
010

Hot and cold water output for taps placed on the bathtub edge.
We recommend the installation of anti-scale filters. Flexible length: 1 - 1,5 m

Drain point 5 cm Ø

SIPHON: prepare a dimple of about 8 - 10 cm deep to place the drain.
Don't wall up the discharge tube for its entire length to facilitate the connection.

Electrical cable projection of about 1 m (230V - 50Hz).
